

My First Presentation

Your Name

February 2, 2026

Outline

Introduction

Content

Conclusion

Welcome

This is a minimal Beamer presentation.

- ▶ Beamer uses **frames** instead of pages
- ▶ Each frame becomes a slide
- ▶ Content works just like regular LaTeX

Mathematics

Beamer handles math just like articles:

$$E[R_i] = R_f + \beta_i(E[R_m] - R_f)$$

Inline math works too: α , β , σ^2 .

Lists and Blocks

A Block

Blocks highlight important content.

1. First point
2. Second point
3. Third point

Summary

- ▶ Beamer creates PDF presentations
- ▶ Structure: frames, sections, blocks
- ▶ Math and formatting work normally
